Gaze in awe at Cheops (Khufu) - the largest of the three great pyramids. Constructed from over 2.5 million limestone blocks, it is thought to have taken more than 20 years to construct. The other two - Chephren and Mycerinus are equally impressive. Afterward we tour the tomb-strewn necropolis of Saqqara, featuring King Zhoser's step pyramid. Constructed by Imhotep, the pharaoh's chief architect in 2700 BC, this was the template for all future pyramid construction.

Afterwards, we'll admire artifacts from Ancient Egypt in the Cairo Museum, home to the most extensive collection of ancient Egyptian antiquities in the world. Arguably the most famous exhibit is the stunning solid gold funerary mask of the boy-King Tutankhamen.
